

# CLEANABLE BASKETS

FOR LIQUID BAG FILTER HOUSINGS

PPB1 & PPB2

## APPLICATIONS

- Replaces bag filters with multiple layers of stainless steel wire-woven cloth, diffusion bonded together for increased strength, corrosion resistance, and long life.
- One piece construction for ease in handling, no need for a perforated basket for support, no need for a bag for filtration, basket becomes the filter media.
- Easily cleaned.
- Sized to replace #1 or #2 size bag filters and perforated strainer baskets.
- Fits all Krystil Klear Model 88 Single Liquid Bag Housings.
- Use in Purolator PB8 Single Liquid Bag Housing.

## FEATURES

- Purolator's exclusive Poroplate® filter media (see back for more information on Poroplate® Media)
- All 316SS stainless steel construction for corrosion resistance.
- Choose from 6 micron ratings, for the level of filtration that meets your requirements, from 10-150 micron absolute.
- TIG welded construction for long life.
- Additional end ring configurations available to fit other liquid bag housings:
  - American Felt & Filter
  - Cuno
  - Filtration Specialists, Inc.
  - Filtration Systems
  - Custom applications are welcome
  - G.A.F.
  - Hayward
  - Parker/Commercial
  - Plenty
  - Ronningen-Petter
  - Rosedale
  - UF Strainrite

## SPECIFICATIONS

<b>Dimensions:</b>	<b>Size #1:</b> 6.5" diameter x 13.04/13.38" length (dependent on end fitting) 1.65 sq. ft. of filter media
	<b>Size #2:</b> 6.5" diameter x 24.85/25.19" length (dependent on end fitting) 3.3 sq. ft. of filter media
<b>Maximum Flow Rate:</b>	200 GPM @ 3 PSID clean pressure drop using a 10 micron PPB1 basket. (flow chart for water, hydraulic, and lube oil on back)
<b>Burst Pressure:</b>	100 PSI
<b>Operating Temperature:</b>	-60°F to 400°F, dependent on seals and housing.

Finished lengths of the baskets are 12.25" for size #1 and 24.5" for size #2 with a 6.5" diameter.

### WHAT IS POROPLATE® FILTER MEDIA?

Poroplate® Filter Media is made from layers of stainless steel wire cloth diffusion-bonded together to form a rigid porous metal laminate structure. Poroplate® filter media is corrosion resistant, cleanable, and can withstand high temperature applications up to 800°F. For more information regarding our porous metal cleanable filtration media contact us at info@purolator-facet.com.
